

INDUSTRY SAFETY CONSULTANTS

3255 RANDALL AVE BRONX NY 10465

Commitment to our Clients

We are committed to providing our clients with the best possible services. These services are coordinated and tailored to fit each client's individual circumstances and requirements. We do not sell pre-packaged services, we build relationships.

We believe in what we do. So much so that we take pride in seeing each project to completion. A complete sense of satisfaction in knowing we play a part in bringing a project and all its players home successfully and safely.

SAFETY PAYS !

This statement no longer needs clarification, explanation or proof. The cost of injury prevention is far less than the cost of any injury.

A safe workplace attracts and keeps quality employees. It becomes an asset to any community where your projects thrive. You can operate more efficiently and enjoy a healthy bottom line. Your business and your staff thrive in a safe, healthy and caring environment. Let us help you achieve this type of attitude for any and all of your projects.

INDUSTRY SAFETY CONSULTANTS

3255 RANDALL AVE BRONX NY 10465

INDUSTRY SAFETY CONSULTANTS is a full service Safety, Health and Environmental (S,H&E) Consulting firm. Our services include safety and quality management as well as superintendent and security personnel to general industry, manufacturing and construction.

We service the Tri-State area and beyond, Our main office is located in Bronx, NY. Our training offices in Brooklyn and Manhattan are geared towards a complete and full array of construction, general industry and manufacturing services.

INDUSTRY SAFETY CONSULTANTS strives to build relationships with our clients by emphasizing the importance of risk management and cost effective safety, health and environmental solutions that meet all agency and regulatory compliance. We can help you achieve your Safety, Health and Environmental goals.

INDUSTRY SAFETY CONSULTANTS provides site specific programs and A to Z training with a hands on approach that allow companies to maintain compliance and remain competitive while enhancing the overall Safety and Quality of their workforce.

All training includes presentations and lectures designed to provide employees with the skills needed to meet and understand Code and Agency requirements.

Our management team and staff are approved for work in multiple agencies including New York City Transit, Housing Authority, School Construction Authority and DEP. We provide NYC Licensed Site Safety Managers for major buildings as well as the new Department of Buildings Site Safety Coordinator requirements.

Services

Planning and Management

INDUSTRY SAFETY CONSULTANTS - Will help you take financial control of your projects.

In today's contracting and management climate, the profit margin has thinned so drastically it is fast becoming impossible to see the bottom line. With litigation so commonplace financial success almost seems out of reach. Our management professionals understand this and want to be a part of what makes a project financially successful.

INDUSTRY SAFETY CONSULTANTS

WWW.INDUSTRYSAFETY.ORG

INDUSTRY SAFETY CONSULTANTS NOW OFFERS CONSTRUCTION SITE SECURITY.

A fully trained security staff allows you to accomplish two important goals. First, mitigate the possibility of incidents before they happen. Second, have a fast, professional response when and if necessary.

Who better to supply and oversee your guard staff than those that have a clear knowledge of field conditions and how they may affect the security of your project.

At INDUSTRY SAFETY CONSULTANTS we supply well trained guards that have an understanding of securing a project as it pertains not only to loss control, but risk mitigation and safety of public and property.

“ AFTER ALL SECURITY AND SAFETY GO HAND IN HAND ”
